About Us

Founded in 2009, Arya Electronics & Controls Pvt. Ltd. is a trusted name in the electronics industry.

We specialize in design, development, and manufacturing of customized embedded electronic products. Our expertise extends to printed circuit board assemblies, complete box-build & wire harness assemblies for diverse applications.

With over a decade of experience, we deliver world-class quality at competitive pricing. Trusted by OEMs and resellers alike, we are a frontrunner in high-tech engineering and manufacturing excellence.

Our Mission and Vision

“Engineering the Future of Electronics.”
“From India to the World – Engineering Excellence.”

Mission

To design, develop, and manufacture innovative, reliable, and customized electronic products, PCB assemblies, and box-build solutions that empower OEMs and resellers across industries. We are committed to engineering excellence, uncompromised quality, and cost-effectiveness, while building long-term partnerships with our customers.

Vision

To be recognized as a global leader in electronic solutions and assemblies by delivering cutting-edge, customer-focused innovations.

By 2030, we aim to achieve

A portfolio of 20+ innovative electronic solutions
Serving 50+ OEMs and resellers worldwide
Consistent year-on-year growth of 20%

Arya Electronics & Controls Private Limited

Engineering Strength

- End-to-End Product Development
- Strong R&D Capability
- Rapid Prototyping & Customization

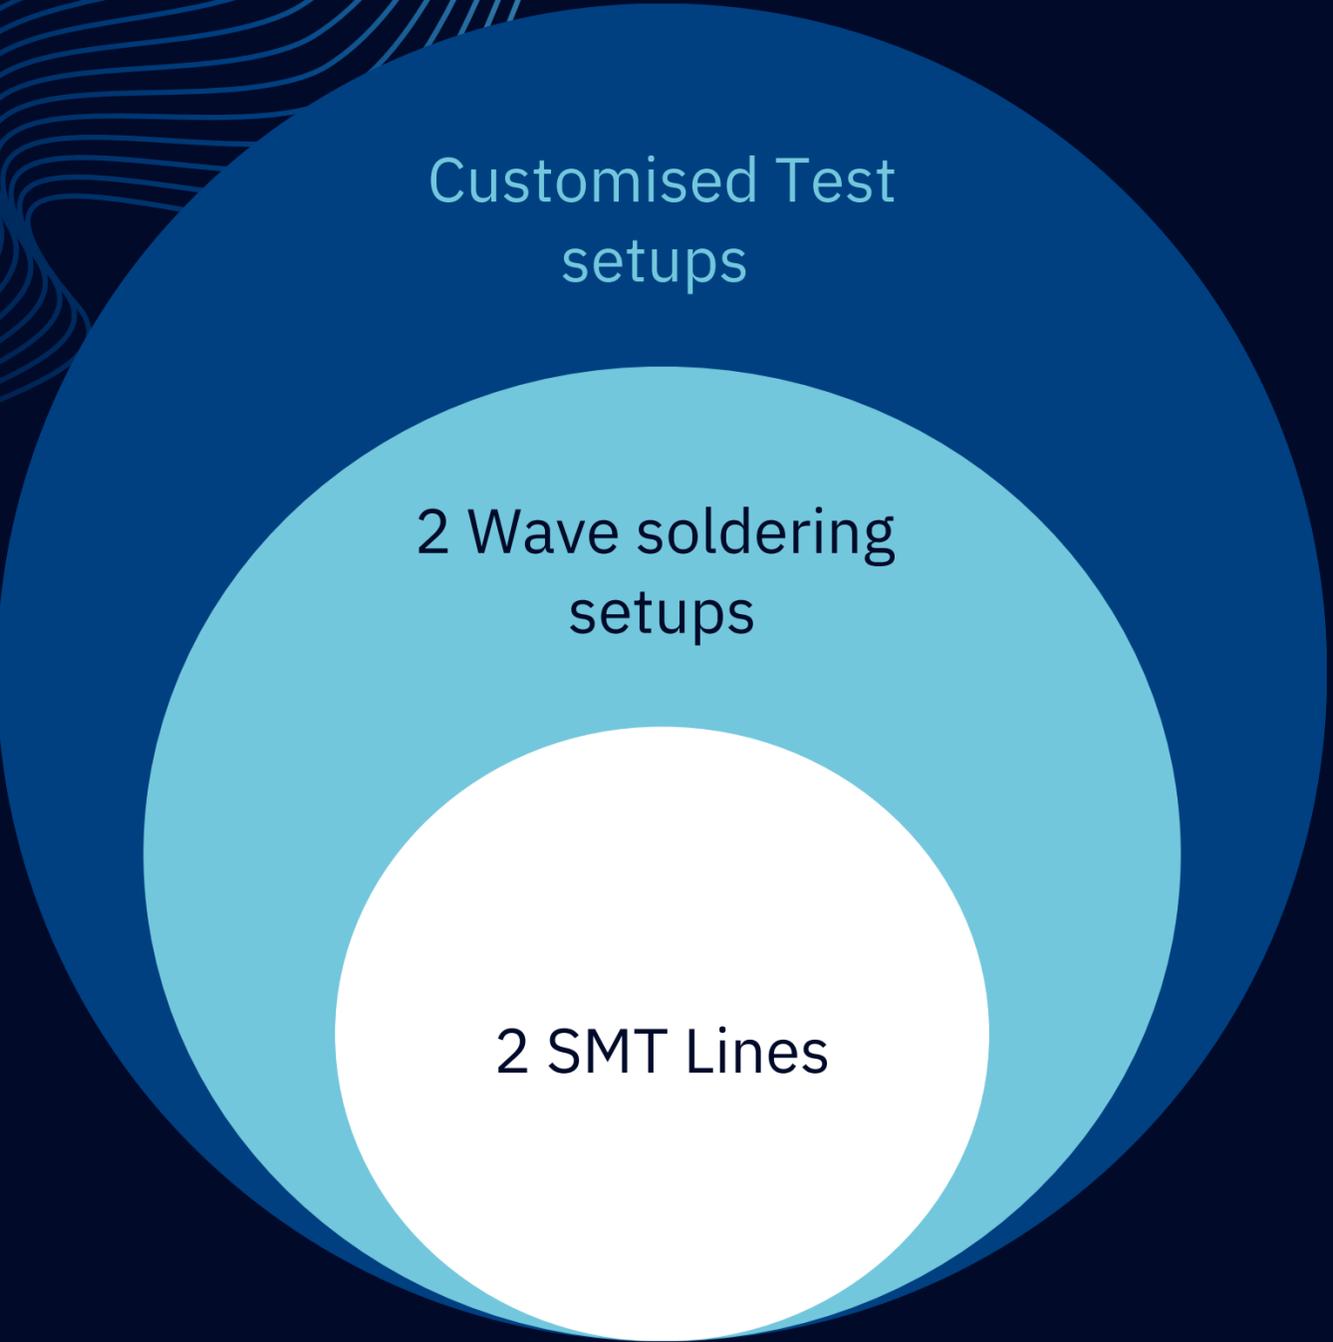

- Quality & Compliance (IPC, ISO, RoHS, CE , UL)
- Type test / routine test / Design validation
- Cross-Disciplinary Expertise

- Simulation Software
- EMI/EMC pre-compliance test setup
- Environmental chambers (Temp, RH, vibration).

[Back to Agenda](#)

Manufacturing Strength

- Procurement of Material
- Material Sourcing Alternatives to Reduce Cost
- Inspection (IQC , PQC, OQC , OBA)
- SMT soldering
- Wave Soldering
- PCB Testing
- Potting / Encapsulling
- Conformal Coating
- Total ESD compliance
- Rejection monitoring
- Corrective & preventive actions
- Traceability

Customised Test setups

2 Wave soldering setups

2 SMT Lines

Key Data

[Back to Agenda](#)

No of Employees	Blue : 40 , White : 25
Customer ppm	2 Digit
Certification	ISO9001 : 2015
Product Portfolio / Flagship Products	30+
Key Customers	13
Turnover per month	1,30,00,000 INR
Export / Domestic business ratio	Export : 10 % , Domestic : 90 %

Governing Body

“Guided by Experience, Driven by Innovation.”

Girija Bhagwat

Director

Manjiri Puntambekar

Director

Gajanan Kulkarni

Next 4 Years Plan

“Innovation • Expansion • Globalization • Leadership.”

2026

- New SMT Line
- Development of 2 new products
- Recruitment of plant head position
- Target domestic B2B clients in EMS
- Top line : 15 Cr

2027

- SMT prototyping line
- Aim for sustainable cash flow, break-even on R&D costs
- Onboard at least 5 new clients
- 15–20% from exports.

2028

- Export to Europe, Middle East, SE Asia (through distributors/partners).
- Revenue target 3X Year 1, with at least 30–35% exports.

2029

- Achieve 4–5X Year 1 revenue, strong profit margins, attract strategic investors.
- Adopt green electronics practices

Our Design

[Back to Agenda](#)

Wire Harness Unit

- **Design & Engineering** : CAD-based harness design (AutoCAD, CATIA, EPLAN).
- **Manufacturing Capabilities** : Automatic wire cutting, stripping, crimping & twisting machines. Customized harness board setups for small to large harness assemblies. Heat-shrink tubing, braiding, and sleeving facilities.
- **Wire & Component Range** : Wire size range: 0.2 sq.mm – 50 sq.mm.
- **Testing & Quality Assurance** : Automated continuity and high-voltage testing machines.
- **Certifications & Standards** : ISO 9001:2015
